STANDARD 10

NSC TRAINING

We help you become compliant with the Standard 10 NSC requirements Provincially or Federally

On-Track Safety offers a variety of driver safety training for the trucking industry, and we're proud that our courses are compliant with the Provincial & Canadian federal government's regulations to help commercial carriers achieve Federal or Provincial Operating Status and meet the requirements of auditors.

Alberta is the only province that has provincial requirements different than the rest of Canada for companies that only operate within the province. But, Alberta carriers that operate in Alberta and other provinces are designated as Federal and must comply with federal legislation. Under federal legislation, trucks or truck and trailer combinations registered for a combined weight of more than 4,500 kg must comply with NSC standards. This means that there are four main courses that need to be taken by each company:

- ▶ Weights & Dimensions
- ▶ Cargo Securement
- ▶ Daily Trip Inspection
- ▶ Hours of Service

This online course provides the tools and knowledge needed to conduct an efficient workplace inspection.

LEADERSHIP IN SAFETY $119

Perfect course for supervisors and managers to understand all their required safety responsibilities

TRAFFIC CONTROL $59

Explains the techniques, equipment, and legal requirements for traffic control persons in a construction environment. I-CAB Endorsed

CONFINED SPACE ENTRY $99

This online Confined Space Entry and Monitor course provide information to individuals required to perform tending worker duties to personnel working in a confined space.

CORRECTIVE ACTIONS

Looking for easy ways to provide training after an incident or violation?

DRIVER LOGS $49

This Corrective Action Training module provides drivers with remedial training related to driver logs. Specifically, this course is designed to remind drivers to complete an accurate log every day, avoid citations due to falsifications, and keep their log updated to their last duty status.

LIGHTS $49

This Corrective Action Training module provides drivers with remedial training related to lights. Specifically, this course is designed to remind drivers that lights and reflective materials help you to see and to be seen, and that broken lights are dangerous.

EMERGENCY EQUIPMENT $49

This Corrective Action Training module provides drivers with remedial training related to emergency equipment. Specifically, this course is designed to remind drivers to carry proper emergency equipment, perform a daily fire extinguisher inspection, and verify the proper number of reflective triangles or flares.

VEHICLE LEAKS $49

This Corrective Action Training module provides drivers with remedial training related to vehicle leaks. Specifically, this course is designed to remind drivers to inspect, report, and fix leaks to maintain safe operations of their vehicle.

BRAKES $49

This Corrective Action Training module provides learners with remedial training related to brakes. Specifically, this course is designed to remind drivers to inspect brakes each day, document findings and repair brakes on their vehicles.

TRAFFIC LANES $49

This Corrective Action Training module provides drivers with remedial training related to traffic lanes. Specifically, this course is designed to remind drivers stay alert, stay within the lines, and make safe lane changes.

SEAT BELTS

$49

This Corrective Action Training module provides drivers with remedial training related to seat belts. Specifically, this course is designed to remind drivers to be safe and avoid injury by properly wearing seat belts.

BRAKE HOSES AND TUBING

$49

This course reminds drivers to make sure brake tubing and hoses are in good condition and function properly before driving, inspect brake tubing and hoses daily, and report any damaged or defective hoses or tubing to be fixed before driving.

STOP SIGNS

$49

This Corrective Action Training module provides drivers with remedial training related to stop signs. Specifically, this course is designed to remind drivers come to a full stop and check oncoming and cross traffic at stop signs.

VEHICLE MAINTENANCE

$49

This Corrective Action Training module provides drivers with remedial training related to vehicle maintenance. Specifically, this course is designed to remind drivers inspect their vehicles regularly and thoroughly, report defects, and repair problems.

TIRES

$49

This Corrective Action Training module provides drivers with remedial training related to tires. Specifically, this course is designed to remind drivers to properly inspect, repair and care for their tires.
SPEEDING

$49

This Corrective Action Training module provides drivers with remedial training related to speeding. Specifically, this course is designed to remind drivers to avoid accidents, injury, and fines by following speed limits.

TRAFFIC CONTROL DEVICES

$49

This Corrective Action Training module provides drivers with remedial training related to traffic control devices. Specifically, this course is designed to remind drivers to always pay attention to and obey traffic control devices.

ELECTRONIC LOGGING DEVICES $49

This Corrective Action Training module provides drivers with remedial training related to electronic logging devices (ELDs). Specifically, this course is designed to remind drivers to keep the required ELD instructions on-hand, carry a spare device or paper logs, and properly mount their portable ELD.

FATIGUED DRIVING PREVENTION $49

This Corrective Action Training module is designed to provide learners with remedial training related to fatigued driving prevention. Specifically, this course was designed to remind drivers to be aware of the warning signs of fatigue, get proper sleep, and take steps to prevent fatigue.

CARGO SECUREMENT: FLATBED $49

This Corrective Action Training module is designed to provide learners with remedial training related to cargo securement on flatbed trailers.
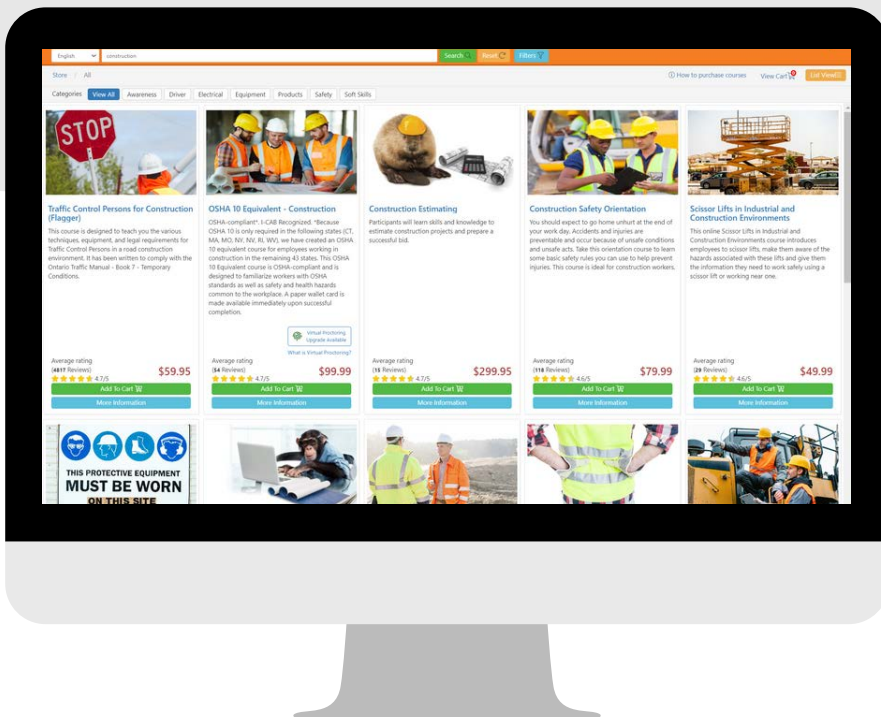

HOURS OF SERVICE AND FATIGUE $49

This course reminds drivers to collect supporting documents that fall into the proper categories, give supporting documents to their carrier no more than 13 days from their documented date, and provide name or ID number, the date, time and location on each document.

Online Training
Over 1,500 Engaging Training Courses

Demand for online training continues to increase as new online training standards are set and government regulations change.

On-Track Safety offers over 1500 industry-leading online courses. With high-impact videos, animations, and thought-provoking assessments, you can train your entire team from this robust course library. Take the courses right from the On-Track system and store all training records in the same place.

Portal & Course Features

Despite obvious cost savings, many companies are on the fence about whether to transition their safety courses and employee training online. Reductions in costs and physical resources can open additional resources for essential components of your safety program, like equipment and staff. There are many features to our training portal you will benefit from
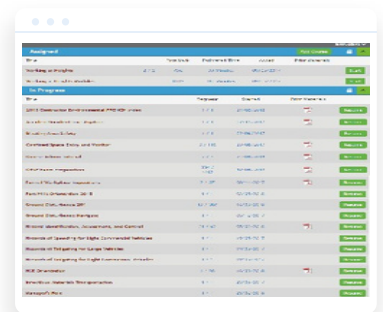

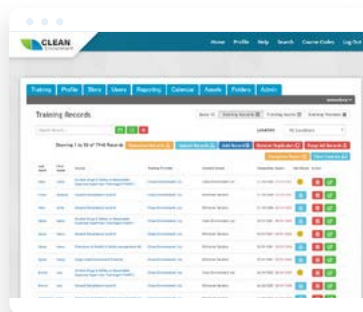

▶ **Access to a customized training matrix where you can add positions & training requirements**

▶ **Ability to start and stop a course as needed and restarted where they left off**

▶ **On-The-Go Mobile Training - access all courses on any device**

▶ **Digital or Printable Safety Certificates**

▶ **The location manager can easily add users and assign courses**

▶ **Email alerts when workers complete a course**

▶ **Ability to upload training records**

▶ **Unlimited excel reports**

▶ **Receive all expiring course notifications for all employees, including managers and supervisors**

▶ **Configure your alerts, so you receive only the information you are interested in**

▶ **Full access to over 1500 courses**

▶ **Online Proctoring Available**

TRAINING MATRIX

Automate the Management of Company Training

Using the Training Matrix, you can upload your organization's unique company roles, and training topics set training requirements and the courses that satisfy them, and quickly assign training to thousands of employees.

ONLINE PROCTORING

About Virtual Proctoring

Developed with due diligence requirements in mind, Virtual Proctoring is employed by institutions & organizations who understand the importance of identity verification & participation monitoring in online testing and training.

Ensuring that students, employees and contractors receive and retain critical information during their online learning experience is a shared responsibility between all stakeholders.

Through unique Biometric ID verification & AI assisted participation monitoring we are able to assist industries achieve hese goals while not sacrificing program integrity or infringing on learner privacy.

How it Works

STEP 1:

The user is asked to take a picture of their face

STEP 2:

The user is asked to take a picture of their ID document

STEP 3:

The facial image is compared and authenticated against the ID

STEP 4:

Paricipation is monitored for custom session rules

STEP 5:

The Session is either cleared or invalid compared to the session rules

START SAVING NOW

Not only will this portal provide your employees with valuable training that can help to reduce accidents and injuries, but it will also give you peace of mind knowing that your team is well-prepared for the challenges they may face on the job. And with our special offer of a 10% discount on all training and a 5-minute account set-up process, it has never been easier to get your team the training they need.
